Magnetic tiles

Instructions for use

1. Product description

The magnetic tiles building set is a creative and educational toy designed for constructing a wide variety of shapes and structures using tiles with integrated magnetic connections. Playing with magnetic tiles supports the development of fine motor skills, spatial imagination, logical thinking, creativity, and cooperative play.

2. Package contents

- Magnetic tiles in various shapes and colors (the exact number depends on the selected set)
- Building inspiration guide
- Storage box or gift box (if included with the product)

3. Recommended age

The toy is suitable for children **aged 3 and up** . It is not intended for children under 3 years of age as it contains small parts that may pose a choking hazard.

4. Safety instructions

1. The toy must be used only under adult supervision.
2. Do not attempt to open individual tiles or strike them against hard surfaces.
3. If any tile is damaged, stop using the toy immediately, as small magnets are contained inside.
4. Swallowing magnets can cause serious health complications; keep damaged or loose parts out of reach of small children.
5. Do not expose the magnetic tiles to high temperatures (above 60 °C) or direct fire.
6. The toy is not intended for support, standing, or sitting.

5. Using the magnetic tiles set

1. Place two magnetic tiles next to each other so that their edges touch. Thanks to the built-in magnets, the tiles will automatically attract and connect firmly without the need for force.
2. Gradually add more tiles and combine different shapes, colors, and sizes according to your imagination. Experiment with various spatial arrangements and create both 2D and 3D structures.
3. For greater stability, we recommend starting with a solid base, such as a square, rectangle, or hexagon. A stable base helps ensure better balance and overall strength of the structure.
4. When building taller or more complex constructions, add tiles gradually and ensure even weight distribution to prevent tipping or collapsing.
5. After playtime, carefully disassemble the magnetic tiles and store them in a dry, safe place so they remain in good condition and ready for future use.

6. Maintenance and cleaning

- Clean the magnetic tiles only with a damp cloth.
- Do not use chemical agents or abrasive cleaners.
- Allow the tiles to dry completely before storing.
- Store in a dry place away from direct sunlight.

7. Product disposal

At the end of its useful life, dispose of the product in accordance with local regulations. The materials used in this magnetic tiles set are recyclable.

8. Warning

This product complies with all applicable European Union toy safety legislation and has been designed and manufactured in accordance with relevant safety standards.

Use the magnetic tiles only for their intended purpose and follow all provided instructions to ensure safe and proper use.

Warranty and how to use the product

The products are provided with a standard statutory warranty period. This warranty is non-transferable and no cash compensation is possible. The warranty does not apply to products that have been used in a manner other than as specified in this user manual.

The warranty also does not apply to:

- Damage resulting from improper use, neglect or any other use for purposes not specified in this manual.
- Damage to the external appearance, damage caused by corrosion or gradual wear.

Any interventions or repairs by unauthorized persons result in the cancellation of the product warranty.
